

Scientific Program

SPE 2018

October 19th

9:00	Registration	
10:00	Opening Remarks	
10:10	Thierry Aubin	Coding strategies in vocalizations of songbirds
11:00	Coffee Break	
Signals and Communication		
11:20	Vanessa Rodrigues	Vocal differences between two populations of coughs in Portugal may contribute to their genetic segregation
11:40	Manuel Vieira	The effect of boat noise on calling activity in the Lusitanian toadfish
12:00	Inês Orfão	The role of male-male competition on the evolution of male-male courtship display a systematic review
12:20	Lunch Break	
14:20	Marta Soares	Taking lessons from cooperative fish: The proximate “ins and outs” of cleaning mutualisms
15:10	Sandra Trigo	Cleaner blues: condition-dependent color indicates cleaner fish service quality
15:30	Joana Rosa	Parasite removal and colouration in male serins (<i>Serinus serinus</i>). An experiment
15:50	Poster Walk	
17:10	Coffee Break	
Climate Change and Behaviour		
17:30	José Paula	High CO2 impairs cleaner fish cognitive performance
17:50	Ana Lopes	Impacts of future global changes on a marine temperature fish species
18:30	Plenary Meeting of the Portuguese Ethological Society	
20:30	Social Dinner	

Scientific Program

SPE 2018

October 20th

9:30	Andrew Higginson	Managing and exploiting environmental variability
Animal Personality		
10:20	Ana Cristina Gomes	Development and retention times of behavioural performance predict the evolution of plastic behaviour in unstable environments
10:40	Soraia Guerra	Seasonal changes in behaviour suggest a role of personality differences in breeding
11:00	Coffee break	
Feeding Ecology and Parental Care		
11:20	Eve Otjacques	Cuttlefish predatory responses to visual and olfactory stimuli
11:40	Fernanda Garcia	Can feeding behaviour of males and females be the reason behind sexual segregation in red deer
12:00	Renata Alves	Adolescent offspring resiliency to maternal separation impact of maternal behaviour
12:20	Lunch Break	
14:00	Manuel Eduardo dos Santos	Wild dolphins, captive dolphins: behavioural and bioacoustical studies in contrasting environments
Human Behaviour		
14:50	Andreia Melo	Animal-assisted activities enhances positive emotions and social interaction behaviours in elderly persons
15:10	Mariana Rodrigues	Mate choice copying and human facial attractiveness
15:30	Vitor Almada Award Posters Award	
15:40	Closing Remarks	
16:00	Gran Finale
